SPECIALISED AGED CARE

Trust in care™

Introducing a **new** generation
of aged care excellence

a care community by

Hawkesbury LIVING

Registrations now available

We believe every person **deserves** to live with purpose and dignity

Welcome to a place of warmth and companionship.

Where expert medical care is provided with kindness and empathy. A place where you're part of the community, but valued as an individual. A place with specialist care for dementia, complex behavioural conditions and palliation. Where activities and services are your choice, based on interests and ability. It's a new generation in aged care excellence. It's Rivera Place.

We know how challenging it can be when a loved one requires round-the-clock care. The Richmond Club, through Hawkesbury Living has a proud history of supporting our aging residents, providing leading edge clinical and empathetic care to maximise the quality of life's later stages.

Rivera Place is a new aged care community from Hawkesbury Living, offering affordable specialist services and support with a highly personalised approach. We respect the knowledge and experience of our aging citizens, supporting individuals and their families based on their unique needs, whether that be help getting dressed, or full time nursing support.

A new era

Our name was inspired by the river, the beating heart of the Hawkesbury region. We're a multi-generational community with a meaningful history across eras. Each of our residents has stories connecting them with family and community.

We're entering a new era of clinical and care excellence with the launch of Rivera Place.

It's your place.

**Rivera Place.
Specialised aged care.**

A care community by Hawkesbury Living

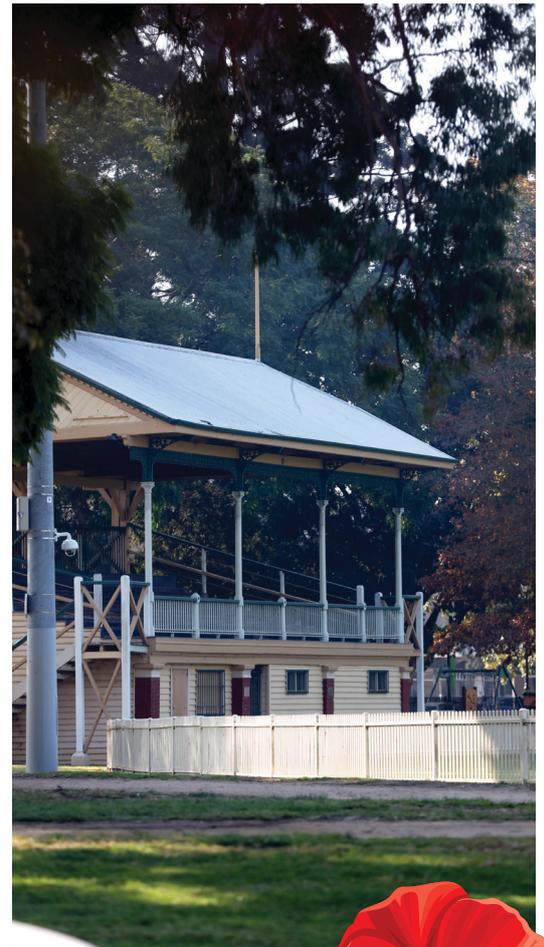

Belonging and companionship

We believe a sense of belonging and companionship is vital to well-being. Our philosophy shifts the focus and aged care away from the traditional clinical atmosphere of nursing home facilities to a more homely, person-centric service based on holistic care. Rivera Place provides a wide range of services to maximise choice and independence and, encourage our residents to socialise and engage with others. We even have companion suites available for those who like company or for couples who want to stay together. Our suites are spacious and modern, so you'll feel right at home.

Part of the community

The facility is the third stage of the Richmond Club's Master Plan to increase the quality of care and number of aged care beds available in central Richmond. Located in the heart of the beautiful Hawkesbury River region, we're an active part of the community. Rivera Place is close to shops, parks, the bustling café culture, the Richmond Club and public transport, easily accessible for family to become regular visitors.

You can **trust** in our care.

Dignity and independence

Families and residents place their trust in us to deliver exceptional personal and medical care.

We offer a combination of specialist clinical and lifestyle services, expert training and experience, and community engagement delivered in a five star environment by Hawkesbury Living, a trusted local provider.

After extensively researching aged care world wide, we've adopted the Humanities model from Denmark for nursing care, and the Age Song model for dementia residents.

Specialised complex care

Rivera Place specialises in the care of those with complex or multiple behavioural and memory conditions such as depression, alcoholism, post traumatic stress, dementia and the needs of returned servicemen and women. Our highly trained and empathetic staff will also provide palliative care and comfort to those reaching the end of their lives.

As there are currently few options in the region for aging residents with complex medical needs, Rivera Place will ensure they can remain in their local area amongst their community.

We offer high care, dementia care, palliative care and respite services.

Why Rivera Place?

- Affordable superior care services
- Innovative Humanities Model of Care
- Specialist complex care

- Indoor/outdoor family entertainment areas
- All floors have internet/media corners
- Function facilities, party and speciality nights
- Richmond Club social activity schedule
- 5-star chef service
- Maggie Beer Foundation food choices

A care community by Hawkesbury Living

Purpose-built contemporary living

The Rivera Place development will create an extension of 34 residential aged care beds to the existing 100 bed facility at Hawkesbury Living, which includes Magnolia Place (specialized memory care unit).

The building will also include ancillary services, creating a hub for the community, improving social inclusion for residents and keeping them connected with the local area. Our purpose-built site includes common areas such as function areas, outdoor amphitheatre, dining and lounge rooms on each level.

Most suites are spacious and contemporary with private ensuite, five star fixtures, furnishings and equipment. A number of rooms are available as two bed companion suites and overlook historic Richmond Park. Kitchenettes are provided with free access to tea and coffee making facilities, bar fridges installed in single rooms, internet corners and latest IT throughout the whole development.

Three Levels of Specialist Care

Floor	Suites	Offering
Ground	7	Suites, 4.5 star fit-out, bar fridges, internet cafe, lounge, alfresco seating
First	18	Specialised complex care; communal dining and lounge facilities
Second	9	Specialised complex care; Internet cafe; communal dining and lounge facilities, 4.5 star fit-out and bar fridges.

Connecting Community

The heart of the Hawkesbury area, The Richmond Club is proud to support our multi-generational community, integrating hospitality and entertainment facilities, health and wellness services and lifestyle amenities.

Through Hawkesbury Living, we are driving a 'healthy community' Master Plan concept, where people of all ages can live and work in the same community.

For the past 13 years we've been working on a five stage plan to prepare for the growing demand for quality aged and dementia care in our region. Hawkesbury Living delivers first rate care services in a caring and inclusive environment, so our aging residents can remain connected within our community, and whichever community they came from.

The Club's inclusive Model of Care, focuses on 'aging in place'; wellness rather than illness, provision of local access to health care, and alternate lifestyle choices to traditional aged care models.

The opening of Rivera Place in June 2019 is the third stage of the master vision, with the next phase including the development of a retirement community adjacent to the Club and co-located within a village square, additional residential aged care facility, childcare facility and new bowling green.

New residents' families will be able to enjoy all services our main club has to offer, including our GPA-rated Richmond Golf Course, Wanderest Travellers Park, \$1.3m Arcadia children's entertainment centre and the soon-to-be-constructed 121-room hotel, perfect for families who need to travel to visit their relatives.

We're also active in many other health initiatives across our region to promote social inclusion and improve health services for our elderly.

Together we are creating positive and sustainable change, continuing our legacy of pride and belonging for our Richmond community.

We are creating a place for everyone, where there will always be, ...a place for you.
